Nairobi, Kenya

PROFESSIONAL SUMMARY

Self-driven and hands-on ICT Technician with practical experience in computer hardware assembly, networking, system installation, and IT support. Currently pursuing a Diploma in ICT Technician at Railway Training Institute. Proven ability to diagnose and resolve hardware/software issues, configure reliable networks, and deliver excellent end-user support through freelance engagements. Passionate about delivering efficient technical solutions and eager to apply my skills in a dynamic ICT environment.

CORE TECHNICAL SKILLS

Hardware & Maintenance

- Computer assembly, disassembly, and upgrades (RAM, SSD, PSU, Motherboard)
- Hardware diagnostics, troubleshooting, and repair
- Preventive maintenance and system optimization

Networking & Connectivity

- LAN network design, installation, and configuration
- Router configuration (TP-Link, Tenda, XPON)
- WiFi setup, hotspot creation, and signal optimization
- IP addressing (Static & DHCP) and network troubleshooting

Software & Systems

- Windows 10/11 installation, configuration, and optimization
- Driver installation and software deployment
- Virus/malware removal and basic system security
- Printer installation and troubleshooting

IT Support & Tools

- Remote support (AnyDesk, TeamViewer)
- End-user technical support and training
- Microsoft Office Suite and basic Command Line (CMD)

Web & Digital

- HTML, CSS, and JavaScript (basic web development)

PROFESSIONAL EXPERIENCE

Freelance ICT Technician / Independent IT Support Nairobi, Kenya | 2023 – Present

- Installed and configured stable LAN and WiFi networks for homes and small offices, ensuring reliable connectivity for multiple users
- Assembled, upgraded, and repaired desktop computers for individual clients, improving system performance
- Diagnosed and resolved complex hardware and software faults, reducing downtime for clients
- Performed clean Windows OS installations, driver setups, and system optimizations
- Provided on-site and remote technical support using AnyDesk and TeamViewer
- Configured routers and resolved connectivity issues (ping, IP conflicts, signal problems)
- Delivered basic ICT training to clients to improve their technical independence

EDUCATION

Diploma in ICT Technician Railway Training Institute, Nairobi | 2024 – Present (Expected Completion: 2026)

Relevant Modules: Computer Repair & Maintenance, Computer Networking, Manage Information System, Basic Electronics, ICT System Support, and Manage Database

Kenya Certificate of Secondary Education (KCSE) St. Thomas Aquinas Thomeandu Boys Secondary School | 2020 – 2023

Kenya Certificate of Primary Education (KCPE) Ngakaa Primary School | 2011 – 2019

KEY PROJECTS

1. Computer Assembly & Repair Projects Built and repaired multiple desktop systems from scratch, performed component upgrades, diagnosed hardware failures, and conducted preventive maintenance.

2. LAN & WiFi Network Setup Project Designed and implemented small-scale office and home networks including router configuration, IP assignment, device connectivity, and troubleshooting.

3. System Installation & Optimization Project Conducted clean Windows installations, driver configurations, software deployment, and performance tuning for improved speed and stability.

4. Web Development Projects Developed an interactive quiz web application and a personal portfolio website using HTML, CSS, and JavaScript.

KEY STRENGTHS

- Strong practical technical skills with a solution-oriented approach
- Fast learner capable of working independently or in a team
- Excellent problem-solving and analytical abilities

- Good client communication and user support skills
- High attention to detail and commitment to quality service

AVAILABILITY

- Flexible for 3–6 months attachment period

INTERESTS

Computer hardware repair, networking, cybersecurity fundamentals, emerging ICT technologies, and Rugby.
